ROBOTICS SUCCESSFUL AT STATE CHAMPIONSHIP

The DSHS Spring Konstant robotics team placed seventh out of 32 schools during qualification matches at the FIRST Robotics State Championship, earning the designation as Alliance Captains, which meant the team was given the privilege of choosing the other two robots (schools) they would compete with during the finals. This is considered to be a rare occurrence for a rookie team.

The team (working with teams from Jersey Village High School and Energy Institute High School) advanced to the quarterfinals of the tournament before being eliminated.
