**DATE:** September 25, 2017

### **LONG-RANGE FACILITY PLANNING TO BEGIN**

This year Dripping Springs ISD welcomed nearly 400 new students – representing a 6.7 percent growth rate – a trend that is expected to continue in future years.

To accommodate this steady and strong pace, planning soon will commence to evaluate current facilities, examine enrollment projections, and develop recommendations for additional or expanded facilities that would allow us to address the future needs of students. As such, the Long-Range Facility Planning Committee will reconvene to address this topic. This group will include representation from parents, community members, and business leaders, as well as instructional and administrative staff.

Anyone interested in serving on this group may volunteer to do so. An online form is available on the district website ([www.dsisdtx.us](http://www.dsisdtx.us)); go to "Community," then click on "Advisory Committees." For more information, contact our Finance and Operations Department at 512.858.3006. The first meeting is Monday, Oct. 9, at 6:00 p.m. in the Board Room at the DSISD Administration Building.
