

**We are implementing revised procedures for the DSISD Bring Your Own Devices (BYOD) policy. Using special equipment, such as iPads, and other devices, is a privilege. In order for students to keep this privilege, everyone must follow DSISD guidelines.**

**Tablets and/or devices are to be used for educational purposes only. If students are not on task or not using a device appropriately (such as using apps other than what the teacher has requested) they may lose privileges.**

**When a device is brought to school that has WiFi access, students MUST use the tigernet network. This contains filters and will keep the learning environment safer. Failure to stay on TigerNet will result in losing device privileges.**

**Please sit down with your child to show them how to connect to a WiFi network on personal devices.**

**To join the WiFi network on an apple device, go to: Settings > WiFi > Choose a Network: tigernet > type in password: Tigers2014**

**To join the WiFi network on other devices, go to the WiFi icon (you may need to click on it or drag down the menu): Choose a Network: tigernet > type in password: Tigers2014 > Some devices may require you to go to your "web" or internet browser (Safari, Firefox...) to sign in or "accept" the connection.**

**In addition, please review the following procedures with your child:**

- **Arrival: Morning device use ends at 7:15 am in both the gym and cafeteria.**
- **Dismissal: Device use not appropriate, except for daycare buses waiting and if bus driver permits.**
- **Hallways: Device use not appropriate.**
- **Lunch/Recess: Device use is not appropriate, unless an accommodation is warranted.**
- **Classroom- Personal device use is teacher discretion. Texting and the use of social media applications is not permitted from any device.**
  - **Classroom consequences if personal device is used inappropriately (teacher discretion):**
    - **1st infraction: Reminder of expectation/give grace**
    - **2nd infraction: Ask student to put device in backpack and not able to use in classroom**
    - **3rd infraction: Collect device and notify parent**

**Thank you for your assistance in making the BYOD program successful for your child.**
