Have you become a PTA member yet??
Anyone can join, parents, grandparents, neighbors and friends.
Your membership fees help directly in supporting programs that enrich your children's education. Volunteerism is welcome but not a requirement of becoming a PTA member.
It's easy to join at www.joinptao.org
VOLUNTEER BREAKFAST
THIS FRIDAY AT 8:00AM IN THE PTA ROOM

If you are wanting to plug-in to Sycamore but not sure how, come to the Volunteer Breakfast! You can hear about all the amazing programs and support we are trying to get off the ground, connect with Coordinators to ask questions, and see what areas you’d like to get involved.

We have one-time opportunities, do-at-home roles, community building events, student education enrichment, roles that directly support teachers and staff...we’ve got it all and we need YOU to help make it all happen. Please join us on Friday!

You can visit THIS LINK to become familiar with the ways PTA plans to support Sycamore this year. The document contains descriptions of each program and what volunteering would look like. This will help you know who you would like to connect with on Friday.

Thank you all so much for your support of SSES! Hope to see you Friday!

Please RSVP to Ruth Gardiner at ruth.gardiner@dsisdtx.us for visitor badge.

Do you have an artist in the house?

PTA is sponsoring an art program that is open to all students with a current PTA member in the family. This year’s theme is "Within Reach", and children can express themselves through dance choreography, film production, literature, music composition, photography and visual arts.

Deadline for entries is October 24th, so get those creative juices flowing!

TIGER DADS

Tiger Dads are fathers, grandfathers, uncles, or other father figures who volunteer at their child’s school during the school year. The program underscores the importance of positive male role models for our students, demonstrating by their presence that education is important. In addition, our extra sets of eyes and ears enhance our school security and reduce bullying. We would love your support, so join us!

MATH PENTATHLON SHOWCASE!

+Active Problem-Solving +Scientific Thinking +Self-Confidence +Critical Thinking
+Determination +Courage +Nonroutine Problem-Solving +Kindness

On September 20, 2017, all DSISD elementary and middle schools will be presenting a Math Pentathlon showcase!

What is Math Pentathlon? It's an enrichment program, a competition—students, with a BROAD range of ability (i.e. your student doesn’t need to be a math whiz to participate!), play a set of five games. Students practice weekly (at their schools), learning the games and strategies; then compete in the spring at an Austin-wide tournament for their age division. These games help student push the boundaries of their cognitive development. Adults will find the games fun and challenging as well when they help monitor the students’ games!

Beyond cognitive growth, parents, teachers, and MP Coaches all over the country have found that the Math Pentathlon fosters character development. Students learn to win and lose respectfully, support each other, and develop grit.

Come learn about the games, and each school’s individual registration and procedures, on September 20th at 7:00 pm, hosted at Rooster Springs Elementary. There will be a short introduction into the Math Pentathlon program then game demonstrations, with question and answer time with each school about how the practices will be held and registration procedure.

Bollywood Dance (Gr. K-5 Girls & Boys)
Bollywood Dance has been seen in many Hollywood movies such as Moulin Rouge, Chicago, and Slumdog Millionaire. Bollywood dancing has also been showcased several times on famous reality shows like So You Think You Can Dance and Dancing with the Stars. The word Bollywood is the fusion of two names, Bombay and Hollywood. Similarly, it also inhibits eastern and western flavor of dancing and music. The Bollywood dance style incorporates the fusion of East Indian Classical, Folk and also Contemporary movement from Hip Hop, Jazz, Ballet, Salsa, African and Belly dancing. In this session students will learn fun techniques to incorporate rhythmic, full body movement to a dynamic choreography. We will have a performance on the last day for friends and family. The students will also have an opportunity to perform at local festivals and events (optional).

Brick LAB: Brain Builders (Gr. K-4)
Our classes are built for LEGO Enthusiasts! Students work individually and with a partner to complete a new building challenge each week. Students will also have the opportunity for creative exploration time during every class session. Weekly emails with educational concepts, vocabulary, and a picture of the model allow families to explore and build together after class. Every student builds a custom LEGO® mini-figure and takes it home to keep at the end of the session! (Students re-use the model kit parts each week, so models don't go home.)

Minecraft: Create Mini-Games & Structures (Gr. 2-5)
Join forces with your fellow Minecrafters to create epic structures and exciting mini games on a customized server world. Using the popular Minecraft plug-in World Edit and a classroom server, students will build, share, and create together in the same world to make castles, hotels, parkour courses, battle arenas and much more. Students will also learn about Redstone, commands, building techniques and social gaming. At the end of the course students take their creations home on CD (for PC and Mac only).

Programming Fun with Scratch and GameMaker (Gr. 2-5)

First learn to use Scratch® programming language. Through the creation of interactive stories, animations, games, music and art, students will develop a foundation of programming concepts that will prepare them to higher level programming languages in the future. Students will learn to think creatively and to reason systematically. Then learn GameMaker to create a platform game like the old Mario games. Learn to make your player jump, fall, have gravity, pick up treasure and move to new rooms and levels.

TGA Premier Youth Tennis (Gr. K-5)

Come serve it up with TGA Premier Youth Tennis at your school! TGA has partnered with the United States Tennis Association to create a fun and innovative tennis program for your child that takes place after school on campus. TGA’s 5 level elementary school curriculum includes games, drills and physical fitness activities that improve motor skills, agility and hand-eye coordination. Every TGA class focuses on academic concepts developed by educational experts, the rules and etiquette of tennis and skill development. TGA brings all of the equipment, training materials and a 10:1 student to instructor ratio to allow for plenty of individual attention. Our goal is to not only develop our student’s tennis skills, but to give children the building blocks for future achievement on the tennis court and in life.

Young Rembrandts Elementary Drawing (Gr. 1-5)
Back to school is in full swing as Young Rembrandts presents a bountiful selection of drawings that introduces our students to the fascinating world of color, pattern, and design. We will explore color use and composition in our monster and dinosaur drawings, and in keeping with the season, we'll create a stylized fall leaves landscape. We'll examine cultural themes by drawing Kawaii-inspired art and draw a portrait of our namesake, Rembrandt. Later in the session, we'll create drawings with intricate designs and vibrant colors, including a patterned lion and mandala. All this and more await. Sign up today!
